## External PE coating of Steel Pipes

---

### Technical specification

External PE coating applied to steel pipes with a Kiwa product certificate in the dimensions: DN 60 up to and including DN 400.

### Application and use

The products are suitable for application in underground transport pipes for gas and water for a continuous operating temperature of maximum 50°C.

### Marking

The Kiwa®-mark products are marked with the wordmark "KIWA".

Place of the mark: at an interval of 1 meter.

Compulsory specifications:

- Manufacturer's name and logo;
- Type of PE used;
- Coating thickness class;
- Batch number.

Method of marking:

- Non-erasable;
- visible after assembly.

### RECOMMENDATIONS FOR CUSTOMERS

Check at the time of delivery whether:

- the supplier has delivered in accordance with the agreement;
- the mark and the marking method are correct;
- the products show no visible defects as a result of transport etc.

If you should reject a product on the basis of the above, please contact:

- Mannesmann Line Pipe GmbH
- and, if necessary,
- Kiwa Nederland B.V.

For the correct method of storage, transport and handling, please refer to the processing instructions of the certificate holder.
